Chippewa Indians

#### **Summary:**

Menominee Tribe  
of Wisconsin

The intern will gain experience working in a variety of laboratory, greenhouse, and field settings on research related to plant physiology, genetics, forestry, and wildlife ecology.

Sokaogon Mole  
Lake Band of  
Lake Superior  
Chippewa Indians

The intern will perform various duties related to establishing study plots in the field, collecting tree and herbaceous plant cover data, planting trees associated with an assisted migration study, measuring plant physiological response to light using LiCOR

Oneida Nation

equipment, and other miscellaneous job duties. In addition, the intern will be responsible for taking care of plants in greenhouse and environmental chamber settings (watering, applying fertilizer) and completing general outside nursery maintenance duties (mowing, checking, and mending deer enclosure fences). We are looking for candidates that are
